## Whaly 500 / 500 R Professional

The Whaly 500 / 500R is an incredibly robust, double-walled boat manufactured from high-grade plastic (Polyethylene). This version is even stronger and has a foam layer on the interior, making it the preferred choice for professional use as a work boat, though it is very suitable for rescue operations too. Furthermore, the Whaly 500 / 500R has an additional option: an engine with 50/60hp – very handy when speed is of the essence. This boat is low-maintenance and is produced in 100% colour-fast plastic.

The specifications will certainly convince you of its quality.
